

# REMIprotect

Hygiene walls for counters,  
tables and sanitary facilities

For protection against viruses and bacteria  
transmitted by droplets

# Perfect protection for your staff:

## **REMIprotect Desk for effective and efficient protection against viruses and bacteria**

### **Advantages at a glance**

- Functional and attractive design made of highly transparent clear and durable acrylic glass
- Designed and produced in Germany
- Low weight combined with a tilt-proof design
- Simple and stable assembly
- Easy to clean (just use soapy water or glass cleaner)
- Customised solutions available (special sizes and real glass)

### **Protect your employees from germs, viruses and bacteria**

Ideal for all types of consulting desks, tills, reception areas/counters

- Considerably reduces the transfer of germs, viruses and bacteria when dealing with customers
- Reduced absenteeism due to staff illness
- The highly transparent solution still ensures pleasant customer contact

**The real glass version (optional on request) guarantees permanent and maximum transparency**

- Very long service life
- No yellowing
- Clear view
- Highly scratch-resistant

Standard dimensions: 800 (w) x 700 (h) mm

Immediately available

For the protection of your health:

# REMIprotect Clean hygiene walls for protection against droplet transmission

## Advantages at a glance

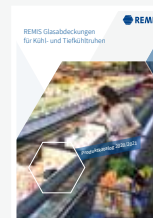

- Splash and sneeze screen between two washbasins to protect against droplet transmission
- Simple assembly thanks to the self-adhesive tape on the wall and on the floor (can be optionally drilled)
- Low weight combined with a functional and attractive design comprising a stable frame made of anodised aluminium with an edged SAN pane
- Customised solutions are possible thanks to in-house production (special dimensions, real glass)
- Easy to clean (just use soapy water or glass cleaner)
